

Pfaff Accessory Compatibility Chart
www.sewesential.co.uk

By finding the code letter that represents your machine from the list below, you'll be able to tell which accessories through-out the catalogue are available for your machine.

Machines with 5 mm and 6 mm stitch width, without IDT™ system

varimatic™ 6087, 6086, 6085 (6 mm)
**hobby™* 309, 307, 303, 301 (5,5 mm)

* These sewing machines have a presser foot holder of 6 mm. Because newer presser feet are produced to fit 8 mm holders, there may be a small gap between the holder and the presser foot attachment. You will need to change the 8 mm presser foot holder when using the newer presser feet.
